Customer Reviews

I bought this book to challenge my fourth grader to read something off her usual path and thought this would do it. It only does it, in that it is a new subject but the content is fairly shallow. Did not see Ferraris, mafia, gladiators,

I enjoyed this neat fun out of Italy with so many fun facts and photos,too! That I would like to recommend it for five stars and especially for kids but even us older ones who would not otherwise have a chance to see and learn through her tours. I received the s ebook for free and here now is my honest review in return. P.s. Could you also do this for Israel too and put it on daily Free books for free or on Kindle Unlimited for those who have such low incomes otherwise, please Jess? Great job Jess! By Angela

This "book" is more like a pamphlet with only 12 pages of low quality black and white images. Some of the facts are not completely accurate and there is honestly nothing "Jaw Dropping" or "Impressive" about this at all. It would be acceptable at a price of about \$2-3 tops, but I paid \$12 and was very disappointed.

Interesting! The book is informative, simple and very easy to understand. I really loved the pictures!! Children as well as adults will enjoy this book.
