Customer Reviews

Great book! Looking forward to a great trip!

It would take over a year to all of the trips, but they all look like fun. You just need to choose.

Enjoying this sooooo much

Bought as a present but content looked great!

This book was more of a list of links to chosen websites. Because of this I became quite sceptical to their suggestions. The maps and planning suggestions were not bad. But it seemed to me that this book was sponsored by establishments looking to direct you to their website. The only reason I down loaded this on my kindle was because it was for free with my prime membership. I would not recommend this for purchase.
