Nielson Phu is a teacher, author, and SAT perfect scorer. Since graduating from NYU, he has helped hundreds of students throughout Boston and Hong Kong improve their own scores with a unique approach that goes far beyond the basic strategies found in typical test prep material. Although he is now an engineer, he continues to teach through The College Panda, an in-depth blog with more than 20,000 readers each month (<http://thecollegepanda.com>)

I can see that the author spent his time trying to categorize the questions by topic and chose to include the most difficult questions. It helps that all the questions are located in one location, which makes access quite easy. However, in terms of originality, this book is lacking. Almost all the questions I

saw were similar to previously administered ACT questions. I suppose for somebody who hasn't seen any of the ACT questions before, this is a fairly decent resource. For a teacher who is looking for truly "advanced" questions, this book doesn't cut it.
