Customer Reviews

Well written I really enjoyed this book. I wish it was longer, I would recommend this book to others.
Thanks

Great service A +++++

Well, I chewed this one up and spit it out! I didn't want to put the book down until it ended. I really enjoyed the theme of it. I do wish it was longer, but for short, it was a very decent read. It's that time of the year and all I want to do is read something scary and Hannah Tidy came through. Great author! The stories are very well written. If you enjoy horror/supernatural, this one has a great collection. I would definitely recommend. I am definitely interested in the authors Ghost Stories book, too.

Short stories of crimes. Interesting read, but not enough information on each crime.

I loved this book, wish there were more stories, but it was really interesting and scary at the same time !!

Be prepared to be scared and feel goosebumps when you start to read this book that consists of seven horror stories about unsolved murder cases, strange and mysterious things that you might never heard of. If your imagination is wild, you will be interested how the author wants you to experience to be in those terrifying situation. The book says these are real horror stories that happened a long time ago and some are only from the past few years, so if you are ready to be awake for the whole night after reading the book then this is perfect for you.

Loved this book, couldn't put it down until the end.

These were spooky short reports, similar to a summary of new articles on real hauntings and unexplained events. Some of the events were from a century ago, but some were from as recent as 2013. I think they scared the author a bit more than they scared me, but this was a short interesting

read.
