## Customer Reviews

My son loved this book and added it to his collection. He loved this book because it told all about how Skeleton Creek came about.

My granddaughter love reading this book

Great read for 5th graders!

I am reading this in my 8th grade classroom. My students love all of the videos. We are definitely a fan of the series!

My students loved this! I did a read aloud of the series

Nothing was answered in this book. I realize the importance for authors to leave room for future endeavors, but this book was a waste of time. Very disappointing.

This book and the many videos that go with it made me completely rethink the Skeleton Creek series. This book is great if you're a fan of the books! It's not a story like the other books in the series, it's about the urban legend of Skeleton Creek, which helps as a back-story. I suggest reading this along with the series to really get a feel for them! Now that I've read this, I think it might all be real!

I have no idea if Skeleton Creek is real or not. The book doesn't give an answer, and that's what I liked about it. This book will make you decide for yourself what the truth is. Many cool videos and it's like a story all it's own. If you're a fan of the Skeleton Creek series than this is a must read. Mind blown.
