Extreme Weather: Surviving Tornadoes, Sandstorms, Hailstorms, Blizzards, Hurricanes, And More! (National Geographic Kids)

Synopsis

Record heat. Record storms. Record drought, snow, rain, and ocean levels. What's going on? In a world of crazy weather exacerbated by climate change, knowing about tornadoes, hurricanes, droughts, derachos, blizzards, and storms is more important than ever. This book, based on cutting-edge science and first-hand accounts, helps kids learn about what's going on and what to do about it.

Customer Reviews

"Whether the weather, itâ™s all covered here! Kostigenâ™s exciting offering fits a niche between weather books for younger readers and adults. In consistent National Geographic fashion, this eye-catching work is filled with captioned color photos, an always-interesting narrative flow, and text boxes with varied tidbits...this is a snazzy, engaging presentation, which is being released simultaneously with his adult title National Geographic Extreme Weather Survival Guide" -

BooklistÂ "Among extreme-weather book contenders, this one stands out for its focus on climate change and what readers can do to survive the associated uptick in extreme storms." - Scientist's

BookshelfÂ "Browsers will find the frequent, high-quality photos engrossing. ...Â Libraries may wish

to purchase for the book's excellent photographs, along with the browsable short sections and checklists." - Library Journal

THOMAS M. KOSTIGEN is a New York Times bestselling author who has written numerous books on the environment, including The Green Book, You Are Here, The Green Blue Book, and The Big Handout. His journalism is regularly featured in publications worldwide, and he appears frequently as a public speaker, as well as television host and guest expert.

Awesome book - Author and National Geographic did not disappoint! My 11 year old son and I needed a book for summer reading project. This book is incredible. Beautiful, quality glossy pages, each packed with incredible pictures and facts, made easy to understand, not overwhelming. We are weather watchers anyway so this book was just a great addition to our collection! Very well done. Love how the sections and chapters are divided into the different types of storms. Love that it included blizzards as we are especially into snow.

Gift for my 9 yr-old grandson who LOVES studying weather! Beautifully illustrated, and I trust the information since it is published by National Geographic. He stopped opening toys to sit down and really look through the chapters. I have already learned plenty from him about the current Hurricane Harvey. This gift will last

Bought this and the "pet tornado" for my weather-obsessed little brother (12 years old) for Christmas. It was a hit!

I bought this for my 8 year old son and he loves it. Every page is full of pictures and the text is easy enough for a 2nd grader to read on their own. Great purchase for any kid who loves weather!

My 6 year old grandson is fascinated by weather. We bought him this book, as well as a few others, and he loved them.

Nice informative book.

My daughter absolutely loves this book.

My son loves all books about weather. This is a good addition to his collection! He likes the photos and information.
