The No Bullsh*t Guide To Writing Erotica Short Stories (Write Erotica For Money): Write For Money

Synopsis

The No Bullsh*t Guide To Writing Erotica Short Stories follows on the heels of The No Bullsh*t Guide To Writing Erotica and Making Money, this time tackling the issue of how to write erotica short stories with minimum muss, fuss, headache and frustration. In order to make money writing erotica, the writer needs to learn how to capitalize on certain key areas in their writing process. Areas like: * tearing down faulty assumptions about writing, writing fast and writing to the market* destroying procrastination* shifting motivation into high gear* getting their ideas, stories and workspaces organized* how to streamline their workflow to maximize time spent at the keyboard* how to keep the words nasty, hot and constantly flowing. In this guide, I take the reader through the processes that have worked in my erotica writing career, keeping me fleet-footed, nimble and agile to stay in pace with the demands of the voracious erotica reader.

Customer Reviews

Unsilenced I love you! Your books are straightforward and lighthearted. Reading them is like talking to a friend. I now have all three of your guides:) If I could ask anything of you, it would be to write a

book about building sex scenes. I worry with my writing I am too much slot a into slot b. For anyone wondering if you should buy this book- definitely. The resources alone make it well worth the .99. What you will get is a recipe for story structure, help with productivity, and funny words of wisdom. Keep them coming!!

I am a "how to write" book junkie. I've read so many books I could start my own workshop. Unsilenced had delivered one of the best books I've read so far. Even if you aren't interested in writing erotica, the ideas and suggestions in this straightforward book will definitely get you writing. Most people are educated in learning how to follow rules and instructions. We need the to do lists to make sense of our everyday lives. Unsilenced gives the bullet points but the keyword here is "Guidelines are not carved in stone". Great work - Thanks!

Nuggets of useful information. I like the authors style. No fluff a very quick straight forward read. Thanks a lot
