A Most Unlikely Hero, Vol. 1

Synopsis

Being a hero is harder than it looks! Alexander S. Ryker dreams of becoming a hero, but dreams are hard to achieve when you've caused several million credits worth of property damage. Being expelled from the Mars Police Academy isn't helping his case. Crushed, Alex encounters a girl named Gabrielle Angelise in a meeting that will change his life forever. Gabrielle is an alien! She's also on the run. Alex wonders if this is the chance that he's been waiting for, the chance to finally become a hero. Opportunities like this don't come often, or ever, and so Alex steps up to protect Gabrielle and make his dream a reality. He will become a hero if the strain from living with an alien bombshell doesn't kill him first!

I personally enjoy books like this even if they can be a little cliché. A very interesting book I can't wait to read the next one.

excl. story line. it is one of the best i have read in a while and i am looking forward to the next installment. i do hope i will not have to spend too long for the next volume (2). Thank You.

Loving the idea and the potential arcs ...it sets the tone for future adventure Keep those books in coming thanks

I took my time and read it from beginning to end and I'm feel like I'm in the story myself. I enjoyed it and I would have gave it six stars but only could give it five unless...
I recommend it, it's a good read and I'm a fan of the series from this moment on.

Could be longer, but a good start to what looks like a fantastic series!

Let me start by saying that I loved this book and Brandon is rapidly becoming one of my favorite authors. About this book:Cons: this is to love-ru with a protagonist that doesn't suck.Pros: this is to love-ru with a protagonist that DOESN'T SUCK. And wow does that make everything so much better. It is also super cute to see Alex and Gabby nerding out together in the lab.MAYBE SPOILER: Incidentally, in your books, you like protagonists with mysterious, unrevealed powers, which I agree is awesome, but you don't have to drag it out so much. I like to see people using thier cool stuff, not so much waiting to see when they'll get it!! I would also like to thank Hanh Ninh Thi for the excellent illustrations, though I do miss Kirsten, though that's mostly because I conflate you too, as she was the first.Ps: you ever consider getting an audio book done? Though if you do, you'll want a lady who can give your awesome women justice. Strong females lose a lot if thier not done right, I couldn't get into another favorite series of mine because of that.Thank you so much for writing this!

For those who know the genre, it is a fun light novel: fast-paced, relatively short and a tad predictable with enough plot twists and humor to make it entertaining at least for me. It has got a superhero feel to it with a thin layer of science fiction to it, but don't expect too much science. Of course, as is typical in the genre, the protagonist is rather dense.All in all, good read, although I did not enjoy it as much as Fox series. It felt a bit more predictable to me.

This book is rather short, but i really enjoyed reading it. This is the first time i have read a manga book, i looked at the title and thought i had to give it a try and i dont regret it.I look forward to the next book in this series.Keep the good work going.
