Just received. The recipes sound great...HOWEVER, it appears to be printed on a home printer that was low on ink! Grey print!! The TYPE and the PICTURES ARE ALL IN GREY AND WHITE. They spent money for the cover and that's it! Very disappointing!!! Can barely read the print and the pictures look terrible. Not a very appetizing appearance. AND the recipes run together with no spacing between. She should have hired a printer....

These were the strangest recipes I have ever seen. The beer can chicken was hard to follow because it didn't make a lot of sense. A whole chicken on a beer can does not fit in the Instant Pot. This book was self published and the black and white photos did not always match up with the recipe. Save your money. This book is even worse than I first thought, shame on for selling it and shame on the author's friends who gave this cookbook more than one star.

Instant Pot Cookbook: A Complete Instant Pot... by Sarah Stewart Starts out with introduction to the instant pot and how to use it and how to convert your favorite recipes to the pressure cooker. Each recipe comes with a color photo, ingredient list, and how to make the dish. There is no nutritional information but you might be able to substitute for your dietary needs. Starts out with breakfast dishes, lunches to go and dinners along with desserts.

This is an excellent book with dishes that you can prepare in your Instant pot pressure cooker. I've pass through the book, and the recipes are really mouthwatering. I really like that with recipes is placed a picture of every meal, that much to facilitate the preparation and serving of meals. Really well-chosen dishes. Recommended!

Recipes didn't sound good or wouldn't work on my low carb no sugar diet.

This instant pot cookbook provides fast, healthy, green, easy, clean and safe foods for my family. ItÃ¢â€¢s fast because the food is cooked twice as fast compared to conventional cooking. Healthy and green because the foods are not over cooked and saves energy while cooking

your meals. Easy and not too complicated recipes even for newbies. Most of all easy to clean.

I found this helpful but not something I will use a lot.

I just bought an IP and was looking for a cookbook. I noticed that other cookbooks lacked photos. This one has a photo of every recipe, and has recipes for things I actually want to eat. There's a bunch of chicken dishes, pulled pork, breakfasts, desserts. I took off one star because there's some typos.
