Amazing tips for magma branching. This is a very concise and straight to the point book on drawing

manga characters for beginners. Shows you everything from each body part to clothes and even how to convey movement. The book illustrates in detail about how to draw step by step, from eyes , nose, hands , hair and almost everything. It was fascinating to experience overall.

This book is really great for anyone who aspires to draw manga. The how to guides are very concise and easy to follow, and I like how they provided examples like how to draw Vegeta from Dragon Ball Z. The book is filled with pictures so it's easy to draw along with. Great instructional guide!

I loved this book. It is packed with different types of Manga drawings and breaks them down step by step. I normally think of Manga as super hard to draw and follow along with. However, thanks to Angelina's easy to understand explanations and drawings in this book, I was able to follow along easily. The end result was drawings that looked as good as the real thing. Then, by modifying them just a little I was able to put my own spin on them. This is perfect for anyone who wants to start drawing their own Manga right away!

This book shows you how to draw several different heads using descriptions and images. I think I could follow the instructions to draw these without difficulty.

I used to love drawing when I was a kid and kind of just left that hobby once I went to high school and college. I've recently graduated and really have no hobby to do during my spare time. I came across this book because of the love I have for manga. Tbh manga is sometimes even better than the anime lol. Anyways this book has great tips and designs that you can implement. Highly recommend!

Wasn't really a Manga fan but this guide has made me a believer. Content is accessible, thorough and quite straightforward. The drawing principles it teaches are fundamental and the clear. It is easy to follow along and learn and in no time your result is nothing short of amazing!! I say if you are a Manga fan then this is a must have and even if you're not this is guranteed to turn you around,
