Customer Reviews

I used this for translating a Russian judicial decision into English. It has (some) basic legal terms, but none of the more technical terms I was hoping to find. I found Google translate and multitran.ru to be much more helpful.

I was looking for something that is not expensive and not very detailed. This book is just exactly what I needed. Its only drawback is that there is no English transcription in it. But in general, it is an academically valid book, and a good bargain for its price.

It's small but very comprehensive. I work as a court interpreter and always have this dictionary with me to look up terms if necessary.
