Customer Reviews

These are all great books with so much information. My 7 year old son has been reading them for the past two years and really enjoys them. He remembers so much about history from these books. It gives you odd facts that you may not get from a history book. Beware that some of the books can be a little violent, details about war and killing and such.

Great!

There are a lot of words in this book. I teach 2nd grade and will only use bits and pieces.

I love these books. They're very informative, but the illustrations and the way it is written make it a

lot more interesting than dusty old textbooks.

Fun book and loaded with good information. It makes history fun for kids.
