"...244-page masterwork of photographic tributes to the Italian model, actress and not-at-all-unattractive person" ~UrbanDaddy

Monica Bellucci achieved early stardom as the cover girl for the 1991 Sports Illustrated swimsuit issue. Since then, she has appeared in countless fashion campaigns as well as in many acclaimed films. Currently, she is the face of Dior Cosmetics. Giuseppe Tornatore is one of Italy's most important contemporary film directors best known for Cinema Paradiso, which won the 1989 Academy Award for Best Foreign Film. His latest film, Baarġa, has been critically acclaimed and is a 2010 Academy Award nominee.

It's very cool to see the same subject photographed by so many different photographers. It's a gorgeous survey of her career and versatility as a model.

I love love love this book!!! Monica Bellucci is one of the most iconic and beautiful women to ever exist. Her body of modeling is diverse, sexy and ranging. This is a photography and modeling book to own and own proudly. If I was in a book store and look thru, I would have paid \$100 for with out blinking.

Great great photography and of course one of the most stunning woman of our time. Seriously the best photographers in the world have photographed her. This book is totally worth it.

This is a must have for any Monica Bellucci fan! The book is not an autobiography, but it is a tribute to her beauty. Stunning black and white pictures of her breathtaking beauty fill the pages of this book. Included are rare pictures of her and her child, her husband, and a rarely seen pictures of her as a 13 year old teen.

No female model in history has proven herself to be as gorgeous as Ms. Bellucci. These images from varying artists bring out her beauty!

I think Monica Bellucci is one of the most(or is the most) beautiful model/actress. This book has a range of photos from her whole career and they are all amazing! This book is a pictorial autobiography of a Italian Goddess!

It's one of those great photo books to have on your coffee table, especially if you're a fan of Monica Bellucci.

I love the pictures of Monica. The photographers now how to capture the beauty this woman has. I like that it included some pictures of her when she was young, 17yo I think. The book is big so the pictures are large and there are several pictures from different photographers.
