Ken Blanchard books are almost always gold, and this is no exception. I have this audio book so that I can listen to and from work, and it has come in very handy for me. I definitely recommend

Great concepts and information to see new perspectives in management.

I read/listened to this book during my first month after being promoted to a supervisor. The tips in it helped me to transition to my new role. The system is tried, true and rational but it's not so simple that it's a waste of money. Further, the insight into human nature that it provided is helpful in all roles in the workplace (and outside of it).

This is definitely very helpful.

Great book!. It's too simple to be good.

Great audio book.

Excellent, Excellent Advice and the Methods Work.

Excellent management theory. This disc is quick and to the point. Excellent tool to have all levels of management and even employees take a listen. It is effective and simplistic.
