## Synopsis

Something in the Woods is Hunting Humans; stalked as Prey and snatched without warning...taken silently, or with blood-curdling screams, never to be seen again.... Or found, in the most horrible of circumstances.... This book looks at documented true cases, and the evidence uncovered is shocking and disturbing; the causes are terrifying and horrific. We are being Hunted.....Steph Young has appeared on radio shows & podcasts including "Coast to Coast AM," "Midnight in the Desert", "Where did the Road go" "The Unexplained," "Darkness Radio," and many more... This book deals with unexplained mysteries in the wilderness; and the wilderness is sometimes a dangerous place; and hiking there can come with an unexpected price, & sometimes that price can be very high.

Something in the Woods is Hunting people..Excerpts; 'His clothes were strewn 50 yards from his body. His heavy work boots and his trousers were no longer on his body. His watch was found further away by the stream.'

“Three months later, their bodies were found in a copse. Great mystery surrounds their deaths. A press blackout ensued. The families were told not to speak with anyone.”

Neither he nor his equipment were ever found, and there were several members of the search party who reported that while they were searching they had the unnerving sensation that they were being watched all the time they were there.

A man living in a house next to the field called 911. He said he could hear a woman screaming. He told said he’d gone into the field with his spotlight but couldn’t see anyone in the field or woods.

“It sounded like somebody being hurt; it sounded like somebody being ripped apart.”

It seemed human-like in form; athletic, ready, aggressive and focused. I didn’t see any eyes, yet I could tell it was staring right at me and we were like two animals in the wild in a stand off, guarding our terrain.”

Two disfigured entities burst out of the darkness at them. One he described as looking like a goat, which dragged itself on four legs.

The other was a naked man.’

“The figures seemed to be holding branches on fire. There were four of them....Later that night one of the group who lived on a farm, said that after the figures vanished, they could hear sounds like in an abattoir; of cries and squeals.”

‘They existed for the sole purpose of hunting people.’

“It was a howl. I raised my voice at him to try to get him to snap out of it. Then suddenly there was silence. There was a total silence.”

‘The man, who was embedded in fern, was still alive & lifted up his left hand on the approach of the searchers as if asking them to hasten to his aid. His skull was fractured, and his eyes, face, and that part of his body in contact with the ground had been devoured.’

## **Customer Reviews**

This book affected me more than I ever expected; the stories and theories described really are bone-chilling.

Distracting repetition. Not a bad read though. Could have used spell check. Some theories could have been a bit shorter. Interesting.

Entertaining reads, real or not..

These stories are scary.

Spooky.

Exciting, scary

Love Stephen Young books.

Creepy good.
