Did this book online with a group of women doing a bible study. It seemed like the book was geared towards people with older children involved with sports, and homework etc. I still was able to use the book, but my son is only 2 and some of the "mom" topics didn't really pertain to me.

Our mom's group at church read this book together and we really enjoyed it. The book is divided into 6 weeks with 5 daily studies for each week. The daily studies are short but insightful, which is great for busy moms. I would definitely recommend this for a small group.

Our moms bible study picked this after watching Mom's Night Out. This is an amazing study! Mommyhood is messy, stressful and often leaves you questioning if what your doing is right or even good for your kids. This will have you turning all your worries to God and making the most of your time with your kids.

Very relatable bible study for most mothers. I gave it one less star because I have done a few bible studies and although this one was good it is not one I will remember, I think.

It's not bad or anything, just not the best devotional I've read. I felt like the topics could have been explored a bit more than they were and over all I found myself wanting a bit more out of the book than I got.

I love the format of this study! We are going through this as a summer study while MOPS is out of session:)

I've been trying to find the right bible study to do at home and this one is perfect! Even though it's written by a mom with older children I feel it applies to me even with my little one at such a young age!

Great Bible Study, especially for busy moms and moms that might not be very comfortable with the Bible. VERY friendly study. My moms group loved it!
