Mythology In Game Of Thrones

Synopsis

Game of Thrones, book and show alike, is spun from classic myth, from the tales of Robin Hood and King Arthur to the Norse Ring Cycle and saga of Ragnarok. Above all these human adventures soar Daenerys' dragons adapted from the dragons, wyverns, and wyrms of Western bestiaries. But what about the merlings, seal folk, wargs, greenseers, grumpkins, and snarks: Which mythologies created them? A World of Ice and Fire has lured fans far deeper into Martin's world with exciting new lore of the Valyrians, Mazemakers, and Deep Ones. Discover how it all fits together through the mystical legends of Earth that inspired it all.

Customer Reviews

Are you serious? I have read better theories about the Mythology in Game of Thrones than this author on reddit. All the book does is cut and paste long quotes and speculate based on fan based theories already out there. Shame on you. Get a job! And please save yourselves money and just visit Reddit or some other free website where people have taken time, to read both the book and mythology and have postulated their arguments. This book is a joke. I take that back. A joke of the book has more information than this fraudster cut and paste scheme.
