Customer Reviews

This is a good bare bones guide with lots of pictures at a modest price. Fair warning, Pohnpei reefs are under a significant bleaching event as well as suffering from severe local overfishing. There are still good dives in the passes (channels) and at a few places in the lagoon but overall there are very much fewer apex predators (sharks, barracudas, giant grouper, giant trevally), turtles, rays, and other reef fish. The schools of dolphin, often seen in the lagoon and more so outside the reef, have mostly moved on to somewhere else. However, the water is still warm and clear and the wall drift dives are pure joy! However, if you want the best diving in Micronesia, then consider going to Palau.

A great guide
