ACSM's Resources For Clinical Exercise Physiology: Musculoskeletal, Neuromuscular, Neoplastic, Immunologic And Hematologic Conditions (Acsm's Resources For The Clinical Exercise Physiology)

Synopsis

This Second Edition is designed to provide a resource for exercise clinicians working with patients suffering from a wide variety of chronic diseases and disabilities beyond cardiovascular and pulmonary disease, including orthopedic, neurologic, metabolic, musculoskeletal, neoplastic, and immunodeficiency conditions. Following the authors' expert advice and illustrative case studies, readers will learn how to work with these often underserved populations by providing them with exercise evaluation, prescription, supervision, education, and outcome evaluation. Each chapter, dedicated to a specific disease or disorder, gives a solid understanding of epidemiology, pathophysiology, diagnosis, and medical and surgical treatments. A companion Website will offer the fully searchable text and interactive quizzes.

Book Information

Series: Acsm Resources for the Clinical Exercise Physiology

Paperback: 368 pages

Publisher: LWW; Second edition (January 31, 2009)

Language: English

ISBN-10: 0781768705

ISBN-13: 978-0781768702

Product Dimensions: 0.8 x 8.5 x 11 inches

Shipping Weight: 1.7 pounds (View shipping rates and policies)

Average Customer Review: 4.8 out of 5 stars 7 customer reviews

Best Sellers Rank: #362,066 in Books (See Top 100 in Books) #156 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Physical Medicine & Rehabilitation #216 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Cardiology #233 in Books > Medical Books > Medicine > Internal Medicine > Physical Medicine & Rehabilitation

Customer Reviews

Very comprehensive, the right level of detail for clinical practice

Great quality and in good condition.

A great resource to have if you are working in the clinical setting or for school work.

Good product

ok

Good but difficult book

thanks
