Right Behind You

Synopsis

Lisa Gardner's next thriller following her runaway New York Times bestseller *Find Her* takes her wildly popular brand of suspense to new heights. Is he a hero? Eight years ago, Sharlah May Nash's older brother beat their drunken father to death with a baseball bat in order to save both of their lives. Now thirteen years old, Sharlah has finally moved on. About to be adopted by retired FBI profiler Pierce Quincy, and his partner, Rainie Conner, Sharlah loves one thing best about her new family: they are all experts on monsters. Is he a killer? Then the call comes in. A double-murder at a local gas station, followed by reports of an armed suspect shooting his way through the wilds of Oregon. As Quincy and Rainie race to assist, they are forced to confront mounting evidence: the shooter may very well be Sharlah's older brother, Telly Ray Nash, and it appears his killing spree has only just begun. All she knows for sure: he's back. As the clock winds down on a massive hunt for Telly, Quincy and Rainie must answer two critical questions: Why after eight years has this young man started killing again? And what does this mean for Sharlah? Once upon a time, Sharlah's big brother saved her life. Now, she has two questions of her own: is her brother a hero, or a killer? And how much will it cost her new family before they learn the final, shattering truth? Because as Sharlah knows all too well, the biggest danger is the one standing right behind you.

Customer Reviews

The story begins with a pair of young kids in an abusive home that spins out of control that results in the death of both parents. The trauma of this struggle leaves a young boy and an even younger girl

orphans and separated from each other for the next eight years. After a series of foster home placements disaster comes again to the foster parents of the boy, and a massive hunt for him. The young girl wishes to rescue her brother, but doesn't have the resources to help.

I'm a huge fan of Lisa Gardner's writing! One, she really puts in the research and then shares it with her readers. Not only do you get a great story but you also learn a few things. This particular story isn't as fast paced as some of her others and in that sense, some may have a hard time with the pacing. However, if you look at the scope of the story, the pacing makes sense. I'm sure for law enforcement, there is often bouts of hectic energy followed with the waiting game as the details have to be fleshed out. I know, it's hard to have a surprise ending these days and one is delivered but probably not her strongest wrap up. It doesn't remove anything from the story itself though. A good book to enjoy on a rainy day at home.

I was familiar with the writer and was looking for a new series so I took a chance. The story begins with a murder and moves along at a steady pace. The writer does a great job of detailing the town to the point that you would want to visit. As for the characters the writer did a great job of making them flawed but likable people. I would recommend if you are looking for a solid thriller.

Lisa Gardner has become one of my favorite authors. When I see that she has a new book out, I get it as soon as I can. This book did not disappoint. The story grabs you from the very first page and doesn't let go, even after you finish reading it. It is one of those books that is scary, poignant, deeply sad, yet it gives you hope that good will overcome evil in the end. The twists and turns keep you on the edge of your seat, wishing you could just keep going until you finish in one sitting. I highly recommend this book as well as all of the books written by this very talented author.

I really enjoyed this book. Quincy and Rainie two of my favorites from their past stories. Once again Lisa Gardner gives us a fast moving story with twists and turns with a great end that I didn't figure out who until I read who. A great read and one Lisa's fans will enjoy for sure. Can't wait for her next book!

Wow, you never disappoint Ms. Gardner. I really gobbled up the pages of this, your latest in the Pierce Quincy/Rainie Conner story. When I saw you were putting this out, I was so thrilled. The characters truly come to life for me. So much so that I think about them during the day at work,

wondering what will happen next or how they will react to what I last read! Luka was an excellent addition to the story. In my opinion, there is no better dog in the world than a German Shepherd (or the Belgian Malinois). Though, Molly also become edeared to me. Superb writing, edge of your seat suspense, crime fighting, the love and undying loyalty of a family. What more is there??I want to say here that, believe it or not, not everyone is on Facebook. Include in your next poll and I will happily participate! Or, maybe offer it in a spot on your website. :)It is so refreshing to pick up a book and literally forget that you are reading. I've purchased hundreds of books to read on my Kindle and a select few authors, like Lisa Gardner, can truly write without halting sentences and typos all over the place. A breath of fresh air. Thank you. I pray the story will continue. Keep them coming! Please!! Quincy and Rainie are my favorite but I also look for the Detective DD Warren and Tessa Leoni series. All three excellent stories that I constantly check on for the next installment!! I will never, ever tire of these stories.

I really enjoyed her book. The characters were interesting and challenging. The story kept you thinking what would happen next. It really puts foster parents reactions to the test if they are doing it because they want to really love the children or use them for other benefits.

I have the same thought each time I read Lisa Gardner's books; wow, her books start one way then lead you through to the truth, incredible. Right Behind You does not disappoint. Quincy and Rainie are a brilliant couple and adding a foster daughter made them stronger. This story has twists and turns you can't imagine, bringing you to an incredible ending. Read it, you'll be sucked in the minute you start and will need to get to the end in one reading!!
