The Tax And Legal Playbook: Game-Changing Solutions To Your Small-Business Questions

Synopsis

The Tax and Legal Playbook provides 28 comprehensive tax and legal questions facing small business owners, across all stages of business. Mark J. Kohler delivers a comprehensive playbook of clear-cut truths, thought-provoking advice, and underutilized solutions to save you time, money, and heartache. Each chapter contains stories and case studies to help explain and illustrate powerful strategies that can save you thousands of dollars! You can listen to this book straight through or as a reference guide, hearing the chapters as needed to answer questions as they may arise in your business. Some of the topics include the ins and outs behind fundamental business decisions, underutilized tax and legal strategies that can save you thousands, picking the right legal entity for your business, common legal scams and deceptions to avoid, and protecting your assets and planning for retirement. You will certainly come away wiser and better equipped to make the best decisions for your business, your family, and yourself.

in Books > Business & Money > Accounting > Bookkeeping #27 in Books > Audible Audiobooks > Nonfiction > Law

Customer Reviews

This book is good, but not great. It has the potential to be great, but needs a little more depth. For example, the book has a section on employing family. It even positions this as one of the most important and advantageous strategies. I think this section is about 5 pages and doesn't talk at all about the spouse, only kids. There is sooooo much more to talk about that isn't covered. Sandy Botkin's book is a lot more mature when it comes to tax strategies. This book is strong in general legal guidance which is important. Thus, if you want to do this right, you're going to have to read 3 books: This one, Botkin's book, and Nolo's books about small business taxes (example: Deduct

It).Overall, this is a good book and should be required reading. Its a little shallow in places, but still important.

I used to feel fearful and intimidated by this type of information, until I came across Mark Kohler. He explains tax and legal strategies in a way that is not only instructive, but also entertaining. I mean, isn't this stuff supposed to be boring? The fact is, taxes are one of the largest expenses we will ever have, and asset protection is becoming more and more critical in today's legal environment. Thank you, Mark Kohler for showing me that it's not only how much you make, but how much you keep. I not only highly recommend this book, but I also bought 20 copies because I believe everyone MUST read it.

I just started my own S Corp and newbie in this field and found this book to be informative and easy to read! I will definitely implement some of the authors suggestions and will be sharing this book with all my women entrepreneurs!

I found this book too lightweight. Not enough information and too chatty. Sorry.

Learned a lot. Very good advice and spoke to him in person - very knowledgeable about his subject matter and will be working with him to setup our company. Founder/CEO 1karaat.com

A good basic reference book regarding how taxes and liability are affected by the business form you choose.

nice reference - well worth it

A great easy read;...practical, solid, simple knowledge. If you own a business you need to read it. Good information no matter who you think you're entrusting with your tax planning.
