Superfail

Synopsis

Diary of a Wimpy Kid meets Big Hero Six when a group of young but defective superheroes attempt to save the day! Laser vision isn't so hot when you're cross-eyed, and supersonic flight's a real downer when motion sickness keeps you grounded. Twelve-year-old Marshall Preston is a Defective--a person with superhuman abilities that are restricted by some very human setbacks. While other kids are recruited to superhero teams, Marshall's stuck in seventh grade with a kid who can run at super speed but can't turn a corner, another with a radioactive peanut allergy that turns him into a swollen Hulk, and a telepath who reads everyone's thoughts out loud. Defectives like Marshall aren't exactly superhero material, but when he uncovers a plot to destroy one of the greatest superhero teams of all time, Marshall and his less-than-super friends set out to prove that just because you're defective doesn't mean you can't save the day. With full illustrations throughout and a funny, heartwarming story, Superfail is the perfect book for reluctant young readers and the superhero fan.
