Penny Rugs: Sewing Wool Applique

Synopsis

Learn the history of penny rugs, how they were made, and where they originated, illustrated with wonderful antique examples. Color instructions walk you through the basic skills and materials, and patterns provide you with the charming sheep, watermelon, crows, tulips, and hearts so beloved in primitive arts.

Customer Reviews

Janice Sonnen has specialized in hooked rugs and penny rugs for eight years. A member of the Pennsylvania Craftsman Guild, she has been named to the Early American Life Magazine's Directory of Traditional American Crafts many times.

I enjoyed learning the history of the Penny Rugs. I believe that the Penny Rugs displayed in this book depict the traditional ones that were made in the 1800's. The author gives you some guidance and then we are free to go in whatever direction we want. I would recommend this book to everyone interested in traditional Penny Rugs.

This is the best book I've read on penny rugs. You know how you buy craft books sometimes and you only find maybe one project that you actually want to do? That's definitely not the case with this book. I'm already well into making the large rug on the right-hand side of the cover and there are other projects in the book that I'll do as well. There isn't one wasted page in this book!! I feel like I

received every penny's worth when I purchased this book. It really does show that craft books can be inspiring and affordable at the same time. I wish I had this kind of success with every craft book I ordered. The instructions are simply put and easy to follow. Many thanks to the author for writing this!!

This is THE book for anyone interested in Penny Rugs. It shows step by step easy instructions for making your own. It has given me many ideas for different designs. Also gives the history and shows examples of antique rugs This is a wonderful book for any crafters library. A must have.

Great Book. I love it! Prompt shipping. Thank you so much. :-)

One of the best purchases in books to date! Searched everywhere for a specific runner pattern that I had given as a gift 14 years ago...to no avail. The pattern along with many others are included here. If your new to the craft clear instruction along with nice pics, and historical info make this a real gem and must have book!

It gives directions from dying the wool to assembling the rugs. Patterns for the circle "pennies" were included, and many photos of completed projects. I am excited to get started.

Great book!

Good book
