ATI TEAS Practice Tests Version 6: 350+ Test Prep Questions For The TEAS VI Exam

Synopsis

Our 350+ ATI TEAS Version 6 Practice Test Questions are just like the ones you will see on the real exam and organized so that you will improve your knowledge and test taking skills. Working through practice questions is the most important and one of the most effective methods possible for preparing for an exam. If you don't know what is it on the exam, how can you be ready for test day? These TEAS 6 practice test questions can be used by themselves or in addition to our study guide if you want extra practice. Either way, you get high quality questions just like on the exam to ensure you are prepared for the exam. We understand that not everyone needs or wants a comprehensive study guide, so if you feel you know the material and just want to hone your skills and get some practice, you will find no better ATI TEAS practice test questions than these. If you already have our study guide, you can get even more practice with new questions in this book too!

I like how simple is to read and really understand what the text is explaining! understanding the text is so important to get a pass score in the test!

It does not have learning sections it is just a ton of questions and answers. Any practice is good practice but i like a little more detail when i dont understand something. Pretty expensive for a textbook

Bought this for my GD for a test she needed to take in her college studies. Great Prep book with practice test and test questions.

The questions weren't like the ones on the test. I did worse than when I did it on my own.

Items received as described

The ATI TEAS prep book is filled with all questions and answers, which I like and the thin sleek design of the book makes it easy to carry around and study when needed. However, I would have liked more diagrams in the math and science subjects. Thank you for having this book available and easy to purchase online.

Just what my teacher advised me to get. Still studying and subjects are easy to understand.

This book is not only easy to read, but very precise and concise to the point. I love and the printing is excellent.
