Christina Rose is the creator of a series of grown-up coloring books designed to delight and destress.

Puzzles are fine except numbers are too small. Have to use a magnifying glass, that's a real pain. Don't need huge numbers but just a tad larger. Thanks

Pages are thin and bleed easily. On the plus side there are no designs on the back of each page, but you have to tear out the page or it will bleed onto the next page. Some numbers are hard to read, especially 5 & 6...they look the same. On the picture you can see the black spots from the previous picture and you can even see the next design.

A must have..... I love this book and will start it immediately. It is really extreme and I love

that....many hours of concentrated fun! Should you get it...you too will love it!

The numbers are pretty small, and need to use a magnifying glass sometimes, but all in all, this is a fun book.

Everything you think it is super adorable, might need a magnifying glass because the numbers are small as expected

Love these but they need some quality control as some numbers are missing, duplicate #s...etc.

Purchased as a gift. Friend loved it.

it was ok
