Scorpions (Advanced Vivarium Systems)

Synopsis

Scorpions is one reptile care book from the highly acclaimed Advanced Vivarium Systems series. The AVS series, founded and guided by herpetocultural pioneer Philippe de Vosjoli, is the #1 series on reptile care. From choosing a pet to selecting a veterinarian to feeding, housing, breeding, and more, these books deliver the most helpful and up-to-date information available on popular reptiles and amphibians kept as pets.

Customer Reviews

A native of central Louisiana, Jerry Walls worked as an editor in New Jersey for more than thirty years, authoring more than four hundred publications on natural history subjects, especially reptiles and amphibians. His thirty-eight books (including twenty on herps) range from introductory works on lizards and turtles as pets to massive reviews of seashells, boas and pythons, and poisonous frogs. He also edited Reptile Hobbyist magazine and currently writes a monthly column for Reptiles magazine. He is an active birder, with more than six hundred U.S. species on his life list, and has authored several books and articles on pet and wild birds. Collecting crawfishes, snails, and herps for taxonomic study currently is his favorite preoccupation. --This text refers to an out of print or unavailable edition of this title.

Esta serie de libros es muy completa y Ãºtil para los aficionados a los escorpiones, sÃ³lo falta un pequeÃ±a tabla de sugerencias para enfermedades del escorpiÃ³n. Buen libro.
