Customer Reviews

I think this will be a good series and actually rate it a 4.5. I wish there would have been more meat to the characters because they were all interesting I felt like I skimmed through this book (something I do when I find a book too wordy) but I did not do this with this book as it only touched briefly on much of the content in the story While I do enjoy a fast paced book I wanted to know these characters and their lives more. Hope book 2 delves a little deeper

I was on the fence about this book for awhile because the only works I've read of May's are the modern romances. Wasn't sure how she would do with fantasy but the sample convinced me to get the book. Looking forward to read the next book as well and hoping the 3rd sister gets a story as well. May has a post on Facebook explaining that this world is post-apocalyptic and that all her stories are in the same universe/world. Not sure which but I only caught a few of the modern references but the big thing to keep in mind is THE BOOK IS FANTASY! If the author wants a world with dragons, magics, and a feudal system, no one bars an eye. Add electricity and lack of modern travel and people are in an uproar. There are no rules for genre world building people. Give honest reviews of the story but don't bash it because it's not what you'd expect.

The main characters are very likable, smart, and strong. I read this book without stopping. Xandrie is more than she or anyone else knew she could be, and the author made the journey of finding this character very exciting. King Rhey is a real prize, and I pictured him as Adrian Paul. Hope to see the stories of her Xandrie's sisters (Talia & Aleria), Elza, and perhaps Vincent, and Saskia. I really want to continue with these characters. Rooting for the good guys.

I have been a fan of May Sage since she released her first book on , and this book didn't disappoint. The storyline was a departure from her Contemporary Romantic Comedies, and I was interested to see if it would be as good. It was better! The storyline was very engaging. I read the book in 2 nights. And she did a great job in giving the reader a vivid picture of the world, without repeating details or over-describing things as some authors do. If I had to pick one thing to improve for the future, it would be to have more interaction and romance between the main characters. There was a lot of adventure, which kept the story moving, but it took a long time for the main characters to even meet! I look forward to reading the next book in this series!

The story was rushed, not well fleshed out. There were opportunities for the author to create sub plots and intertwine them, but did not. The book was sorely lacking the details between big actions and events, giving the feeling of a summary and not a novel.

I pre-ordered and have been waiting very impatiently for the release of this book and I am not disappointed. As always, May Sage's worlds are well thought out and convincing, and her

characters relatable. If I had one complaint, it's just that I finished the book and now I have to wait for the next one! of course, this is the same complaint I have about several of her series. Ms Sage, for my sake, please write and publish faster, or complete the series before starting a new one. I can't stand the suspense! ÆfÂ Æ Å, Æ Æœ Æ Â•

I liked how a lot of things that happened in the story would be like the most dire thing in most stories but here it was just a challenge for Xandrie and she handles and keeps going on with the story. She's s great protagonist cause it does feel like while she's competent she could still fail or die she's not perfect or overpowered. Just almost perfect and her power increases as she leans makes for an interesting main character. Looking forward to the next one!

I love all of your books and the female characters are kickass! I can't wait for the next story in the series. The new Kitty Cat book was just as good. So people all I can say is May Sage's stories are totally addictive and like potato chips you just can't have just one. So do yourself a favor and buy them all!!!!!!
