Customer Reviews

This book has nothing specific in it - very general ideas - all have been written about and done over in many places. I can write a book called "make \$1000000 a day with blogging". If I don't explain step by step what to do, readers are never going to be successful. If you are trying to write a book to help, you have to give more than just general words. You have to be specific and resourceful. Why would people ever want to invest in your courses if you are not willing to show that you know something more than just general information available everywhere else for free. I have been blogging for a while myself, and know that there are lots of very specific strategies that need to be implemented for bloggers to be successful. These general overall statements will never get you to \$1000, and there is a lot to learn to get to that level to be financially independent. One aspect that a lot of other sources are covering that this author did not write about is that only a very small percentage of bloggers actually succeed and get to that \$1000 a day. Even big bloggers I know don't make this much - this is a very high level to reach for, and try to achieve. I am surprised the author is so confident especially with the kind of advice that he provides. Overall, a disappointment for me - did not learn anything. I did give 2 stars as I think the book is organized well, and at least there is an attempt to make a well organized e-book - looks like this is where most of the effort of the author went in - a well formatted book about blah. Read this book for free through Kindle unlimited - glad did not pay anything for this book.

A good book but do not think you can read about making \$1000 a day and then it's going to happen overnight. The process is going to be hard and long so don't take everything you read in this book for granted. Will take you a long time to work up to thousand dollars a day you have to really be determined to succeed in months or years may go by before you see any return on your blog.

This eBook had everything in it and more. It has more in depth information and examples so you understand what you need to do. That's a lot more than I found in other books I have read on the same subject!

Big promise in the title, few details in the content. Is there enough information here to make \$365,000 per year. Probably not. Keep buying those lottery tickets.

Good book with more than just generic content. This book is a good tool for starting a blog for the first time.

The title is what got me to buy the book. And once inside, it was clear it was going to be hard to get \$1000 a day blogging and that is full time.

I love this book. As a beginner, it is very inspiring. I love the way Chris wrote it. Have you ever heard of K.I. S.S: Keep It Simple Sam? He kept it simple. It is easy to read, easy to follow, and easy to understand.

Great book. Easy read. Lots of information. An excellent place to start for anyone interested in starting a blog and making it profitable
