Book

perfect, exactly as described.

Shows all the roads - handy even for those who live here like us - we use it all the time

This atlas replaced my 1989 atlas. The new atlas has maps which are clearer, and the book contains more information than the old edition. Both of these rate a plus. But the pages are printed on much thinner paper than the old edition. The book is spiral bound and the pages tear easily. Thinner paper means the book will wear out quickly, which is disappointing.

This comment is not only to say how well priced this easy to read map is- it is also to praise for their wonderful and fast customer service; the map arrived slightly damaged; customer service immediately sent a new one, without even waiting for the damaged one to be returned, for which we did not have to pay postage (which is only fair here!) They" (customer service) continue to be top notch in all aspects, which makes me a devoted customer.

Hagstrom NYC 5-Borough Atlas is the definitive one. But this price actually isn't that bad; THIS edition is the deluxe laminated version. Caveat emptor: do a search; also has the large-format spiral bound and pocket sizes ... for the correct (less expensive) price (and you even save a buck over Hagstrom's own website).

is no bargain on these maps. You are better off shopping elsewhere. As a stockholder I am very disappointed with this section. Zero savings plus shipping. New York City & 5 boroughs map is 3x's the price than in the stores, unless you made a mistake. All titles that I need are not current, cost too much and to boot BACKORDERED!
