inÂ Kindle Store > Kindle eBooks > Nonfiction > Parenting & Relationships > Adoption #50

inÂ Books > Parenting & Relationships > Adoption

Customer Reviews

It was too short, I wasted the money on the book. Yes, I felt horrible what this child went through but the writer Asher Boyd told the said thing in the beginning over & over which took up most of the book. I would not recommend this book. I said I liked the author, but the truth is I wish I spent my money on a different book. It really was not worth it. All of her books are short like this and look interesting but I would not waste money on them. The poor child and what she went through was so sad but they told that at least 3 or 4 times in the book and how they found here. It was what took up most of the book.

I think we should have been told before we bought this book more what it's about....I would never have bought it ...The child should have had help in dealing with thinking she was a boy the way that

she was created

The book only focused on it's short pages Maddie's gender identity. It really wasn't about recovery from horrific neglect and abuse as the description led me to believe.

This was a short story at best--it was the price of an ebook, and marketed as such, however it's extremely short. Plus it's okay I guess, but not very much content or follow up on the story, kind of blah writing the it ends. Definitely not worth the price.

This is not a book, it's a paragraph. You should be ashamed of yourself for even putting this out there and charging people for it.

This is not a book, it's more like a pamphlet. It certainly is not worth the price. I try to remember to check the length before I buy but missed it this time.

Wasn't what I expected in this story. Would of liked more history of what happened to her that she was treated so horribly by her parent and what ever happened with the mother

Quick little read into the life of a sad child, right at a young age. Heartbreaking to have such awful people in the world that could be so mean
