Lisa Paddock, PhD, LLB, formerly a professor of English, is a lawyer and freelance journalist who specializes in intellectual property.

This book makes the Supreme Court easy to understand. I was trying to figure out how this court may get involved with the Immigration Ban, and this book explained it nicely. Most times, people need a simple explanation on how things work. Its really Civics 101, but the average person has probably either forgotten it because it was so long ago, or the instructor was so boring that it never stuck. You shouldn't have an issue with this book.

I'm really satisfied with this purchase!

great book. You will not be as dumb, which does not mean the Supremes might not be. The system is too politicized. Equal justice for all, and all like that.

I received the book on time and in good condition thank you for your service
