Customer Reviews

This is a very short, very basic booklet of only 149 locations. It contains a list of words and short phrases. There is no explanation of pronunciation or emphasis in this little book. Some travel guides have more extensive lists of words and phrases than this whole booklet contains. I recommend this 'Spanish for Travelers' only to people who want to have a short list of useful Spanish words on their Kindle or other device.

This book is not very useful at all. Has no index to search or even simple things like how do I say \$153 in spanish
