Adventures In Caving: Kentucky And Indiana

Synopsis

Notes and photographs from several cave trips in the Kentucky and Indiana area. Includes: Tom Sawyer Park Cave; Mill Cave, Middle Cave, and Waterfall Cave at Henderson Park; "Pooper" Cave at McNeely Lake Park , and Clancy's Cave at Otter Creek. While not an exhaustive guide to the five caves described or substitute for your common sense, the caving notes and photographs paint an informative portrait of each cave. I hope these caving adventures prove enjoyable and inspiring reading.

Customer Reviews

Really a great read! Just read it again - brings back great memories and was written in much the same vein as The Longest Cave, another great read for anyone interested in spelunking! I cannot thank Mr. Nevins enough for writing this!

Imagine someone drawn by the same desire to explore that you feel, who has researched equipment, caving techniques and has gone from cautious beginner to experienced caver. Whether you're just starting out or consider yourself a seasoned underground expert, "comparing notes" with

this readable author will be like coming home. Rarely do you have as clear and reliable a description of regional caving. Nevins applies a crisp, concise first person narrative to share practical discoveries based on solid research and personal experiences. If you're into caving and you live or can get to these sites in Kentucky and Indiana, this guide is a must-buy.

I liked the truthfulness and easy reading style of this book. It shows there are still places near to most people that are for the most part unexplored. The adventure of this book made me feel younger. Peterp
