Customer Reviews

Oh these short ribs, they're going to be the death of me. I literally can't stop eating them. With just the right amount of sweet and spicy, they're so delicious, the family has started making requests once a week for them! I had no idea there would be so many pickle recipes, but this book is worth it just for those! They're great on burgers and sandwiches, I can't wait to try the rest, the recipes are so easy to follow! Definitely recommend

I never thought I'd like much home made Korean food, but these recipes are so delicious, I never knew that home made Korean soups could be so good. The bean paste soup doesn't sound appetizing, but it's definitely one of the best soups I've ever had. The fish soup also has just the right amount of spicy. It's perfect. There's an amazing buffalo wings recipe that has been quite the hit at family get togethers, we always run out so fast! I can't get over how much I like this book

Guess I'm just a "Bulgoggi and Kimchi" guy - having spent 5 years in country I'm always looking for something different - maybe a makli recipe or something off the beaten path. The menu in here is pretty straight forward and authentic, but not what I was looking for.
