## Customer Reviews

Not made clear in the book's description or in any of the four Customer Reviews posted to date, but very important to know before deciding whether to purchase, is that each phrase is shown only in English and Chinese characters. None of the phrases are shown in Pinyin (standardized phonetic spelling of Chinese words using Western characters). This makes it impossible to learn from this book how to pronounce in Chinese any - even the simplest - of the phrases. A glaring omission.

The most useless book I have ever seen. Had I been able to see the inside, I never would have ordered this. This is only helpful if you can already read Chinese characters (Mandarin or Cantonese, I don't know which this is), if that's the case, you won't even need this book. Three of the questions are actually translated into Spanish, this is just lazy. So, I returned it.
