The Norton Anthology Of Literature By Women: The Traditions In English (Third Edition) (Vol. 2)

Synopsis

Long the standard teaching anthology, the landmark Norton Anthology of Literature by Women has introduced generations of readers to the rich variety of women's writing in English. Now, the much-anticipated Third Edition responds to the wealth of writing by women across the globe with the inclusion of 61 new authors (219 in all) whose diverse works span six centuries. A more flexible two-volume format and a versatile new companion reader make the Third Edition an even better teaching tool. "As diversity itself has shaped the evolution of feminist criticism, from its early preoccupation with women's shared experiences to its more recent absorption in the complex issues and assumptions informing English-language texts by women writers of diverse geographical, cultural, racial, sexual, religious, and class origins and influences, so diversity has shaped the revisions of this anthology." •From the Preface

A lot of useful reading packed into the volume. The writing is small and strains the eyes. Consider a magnifier. Otherwise, I highly recommend if you love reading some of the best writing.

Good book, full of excellent authors.

Great text! Women are so powerful! It is wonderful to take a glance into the many lives of women writers.

The book came and is rough. It said it was in "very good condition." The pages are water stained and dirty. I feel kind of gross touching it to use it for school. I wouldn't have minded it as much if it was labeled correctly. It should have said the product was in "decent condition" and also charged less. I am VERY disappointed. Now I am stuck because I am in the middle of my class and have to use it for now.

Exactly what I needed thank you

So cheap, shipped in two days, used it for class.

awesome read

Make sure if you buy this book from that all the pages are in the book. I'm missing pages 577-608!!!!!!
