Customer Reviews

This is a great text on their Lighthouses. The author gathered a great amount of information on all of them. If you want to see all of them though you better figure at least a summer. There are 164 of them listed. I like to photograph lighthouses so often use Google Earth to see the layout of the lighthouses, but with the book you can get a lot of information that helps with when to photograph them.

Though my soft cover book was supposed to have been a used library book, you could have fooled me. Looks brand new! and contains lovely photos and information. The book arrived several days before we left for a wedding in Nova Scotia, so it was very helpful. Our day at Peggy's Cove Lighthouse was picture perfect!!!! Just wish we could have seen more!!!

great books with lots of info and good photos.
