# National Geographic Readers: Trucks

## Synopsis

Who can resist trucks? They're loud. They're complicated. They have wheels twice as tall as your dad. Trucks! has many cool images of the trucks we know and love. There are also curiosities like the \$3 million mining truck that's "like driving a house." This level 1 text is revved up with sound words and images to steer young readers on the road to reading success. National Geographic supports K-12 educators with ELA Common Core Resources. Visit [www.natgeoed.org/commoncore](http://www.natgeoed.org/commoncore) for more information.

I was amazed with this purchase. First, I have never viewed a National Geographic Readers book.

This book is astonishing. The color is vibrant, the pictures are interesting and the entire book is for level 1 readers. So, if your youngster is not reading yet, he/she will read soon with this book. Then, of course, packaged and shipped it with all their typical speed and excellence. It was unharmed by the holiday shipping and it was delivered in a timely manner. I will be buying more National Geographic Readers books for my grandchildren. These books are beautiful and interesting. They hold the child's interest and he keeps coming back for another reading of it.

Using as a mentor text in my classroom for Lucy Calkins Units of study.

I bought this book, just because it's from Nat. Geo. I am really disappointed by the size of the book. It's very small. I have not noticed the size of the book specified in the details section. You will not feel like it has 32 pages. Only few pictures show the trucks fully. It should be great if they can add more pages and increase the size of the book. Photos are good. But in general does not get the expected satisfaction. In order to help the publisher to improve this book, I give only two stars.

Great intro to reading book with fun easy to read facts!

great starters book for our 28 month boy. He loves it and vocabulary is precise. Hydraulic pistons, flatbeds and all that good stuff :)

Love the Nat Geo books in animals. For some reason, they decided to create a complete stereotype of a trucker (named "Slick") for this one. Why not use a real person (or character)?

My youngest loves trucks!!! We first borrowed this book from the library and kept renewing it. I knew we needed it for the collection!! My kids love the jokes and tell them over and over plus we learned about trucks!!

I ordered this for my grandson who is reading and I think he will like it.
