First Time Examinations: A Forbidden Medical Bundle (Violation Innocence Historical Erotica)

Synopsis

This bundle is a collection of different (adult only, explicit) tales of first time medical examinations with a lustful and forbidden twist! Read below to see what's included, or take a look inside.

Examining the Chambermaid – “Now, a more thorough approach. Don't forget to stay still – and if you feel the urge to make any reactions – noises, anything at all, don't suppress it. We need all the results to remain untainted.” Naive, innocent Alyce has waited her entire sheltered life for an opportunity to help her escape from the lowly existence she's been forced to live. Despite being one of the most disciplined maids in the land, her more tan skin and poverty stricken upbringing has kept her from landing a job that would make enough gold to start a new, better life. When she's given the chance to work for the new Duke, all she has to do is pass the medical examination that they give to all potential employees. She'll do anything to pass it... and when the duke's heir realizes this he decides to pose as the good doctor and give her an even more thorough exam than she's expecting... hard and unprotected, that is. Just how far will desperate Alyce go to get the job of her dreams? There isn't much she won't let him do... Read this explicit historical medical erotica to find out more.

Examining the Bride – “Now the rest of it – fully,” he urged me to continue to undress under the guise of medical protocol, but I knew deep down it had to be more. He wanted me, he'd dreamed of me, and now he was finally getting to see me. I'd become addicted to the feeling of lustful power--to teasing and flirting with men, and seeing the look on their faces when they realize the improper innuendos I'm making. It was absolutely scandalous, especially when I started a torrid affair through love letters with the local renowned physician, Doctor Chambers. Now, on my wedding day, Doctor Chambers is here to give me my purity exam and make sure I'm just as innocent as I say--but his intentions are less than honorable. He wants to take me hard and unprotected after testing my untouched body, and do all the things he's written about doing to me for weeks. I try to keep calm and professional, but when he starts to explore me... can I resist? Will it matter if I try? He's determined to have me. Read this explicit historical medical erotica to find out more.

Examining the Princess – “Crawl.” I stared up at him, wide-eyed, not sure if he was actually serious with his demand or not. Why on earth would I crawl? What medical practice was this? Innocent and pure Giselle was raised to be an obedient princess, serving her country no matter what it demanded of her despite her own loneliness and desires. Once she's married off in the name of politics her deepest, most taboo fetishes come to light, and a doctor is called in to cure her of her inability to have a physical relationship with her husband... will his unorthodox practices cure her, or make her even more ravenous for the forbidden, dirty things she craves the most? Who will

truly be the more depraved of the two once the medical professional begins to humiliate and punish her for her urges and desires? Read this explicit historical medical erotica to find out more. Corrupting the Debutante “Flat. Legs up.” I complied, my thighs shaking all the while. “I’ll need you to spread them, Evelyn,” the doctor added... I was always different than everyone else my age, and everyone knew. My olive toned skin made me a target for rumors, gossip, and every other foul part of high society life, until I decided to do the only thing I knew to do: become a recluse. Inside without anyone else to bother me I’d never felt so safe... that was all until I became informed that I was no longer allowed to put off my debutante b
