Customer Reviews

Don't leave home without it!!! I take these everywhere they are available. I spent Nov 04 through Feb 05 and it was invaluable. I am returning again in August, to take up residence, and it is already in one of my bags.

Okay product detail was not that great. Was not on the same level as a AAA map. Not sure a National Geographic map from the magazine would not have been comparable.

What's there to say . . . it's a detailed map.

I don't know much about the Philippines.. so I bought it because I was interested in going to Sagada (near Bontoc).. it is not there. But they have a "Segada" which should be Sadanga. I didn't look any further.I also got the National Geographic Adventure map, and it is very accurate.

Helpful for those over populated places

Ok map.

Tears easily at the creases. Wish it was completely laminated.

map great but needs to be updated , i think it is a little out of date and needs to add more cities
