Franko Maps Ltd. is known for producing the best travel, dive and snorkel maps, guides and fish cards for Hawaii and other locations worldwide.

Just as advertised. This is an overall cool map that serves its function. I was camping on the islands and it tends to be rainy in the Winter, so the fact this this map is waterproof really paid off. I like how there is an expanded view on the second side of volcanos national park. Just be really respectful of that place if you visit as it is very powerful and special. If you've been there you know what I'm talking about. However, I heard that Franko's company screwed him and "voted" him out, still making money off his name? I'm not 100% sure of the validity of this and would like to hear from the company or anybody if they know this to be true or not. In any case, it's still a functional, good product.

The Franko's maps of the Hawaiian Islands take up little space, are made of waterproof material, and provide not only a good map of the area, but also highlights some of the favorite things to see or do on the islands. I have most of the maps that include: The Hawaiian Islands, Oahu Guide Map, Oahu Dive Map, Maui Guide Map, Maui Dive Map, Hawaii Guide Map, Kauai Guide Map and Kauai Dive Map. Six of the maps were available from .com with free shipping, but two had to be purchased from independent vendors on and charged a small shipping fee. For the few dollars I paid, it was well worth it to have a great map that folds up and takes little space in my suitcase. Once I get to a particular island, I take it with me to know where I'm going and where I've been. Bring along a Sharpie pen to mark the places you've been or want to return. The back side of the map has a blown up area of popular places, for example, Oahu has Waikiki Beach and the placement of hotels and landmarks. I highly recommend these maps for getting around the islands.

worked great finding our way around the big island

Love this map because it has so much fun & useful info & is super sturdy. We get these same maps for Kauai as well.

great map!!!!

The print is very small. Even for my young friends. Otherwise it is ok.

Well made. Nice little map. They make one that has all the islands summarized on one single map. Make sure you buy the one you need. I purchased 3 maps when I could have simply purchased the one summary map.

This map is sooo covered in text that it is almost too difficult to take it all in. I am sure it is waterproof and more durable than paper, but I thought it would be harder and covered with plastic. I guess it is all down to perceptions. If you are buying a guidebook and just looking for a relatively simple map for driving purposes, then this is not for you.
