Customer Reviews

Excellent! The Law of Attraction was a really great read, from start to finish. I was really happy with the way the author explained the details so simply and in terms that I could understand easily. I have purchased a few similar books in the past but none were as informative as this one. Overall, this book was extremely helpful for me and outlined all of the key success factors I was looking for. Really worth recommending!

Simplicity and directness are the best approach to any subject. This book conforms perfectly with Occham's Razor, especially how it breaks the whole science of attraction into numbered lists at the end of the book. But, I do like the way he describes the law of attraction during the body of the book also.

We all want to be more attractive to people, whether it is to find our soul mate and life partner or whether it is to project the right image at work or just to grow our circle of friends and acquaintances. This book provides the perfect guide to help you to do just that. It is very well written, clear and concise, thoroughly researched by an author who obviously know his stuff. There is so much good advice in here with helpful tips and guidance. If you are looking to improve you and even change your life this is the book.

Reading this book gave me a deeper understanding on how the Law of Attraction works and how it can be beneficial for anyone. The author was able to discuss every inch of the details which goes around this principle. The seven secrets that was shared in this are not only useful but they were also attainable. The writing approach of the author was simple which made the book content's easy to understand. Interesting book to have!

A very clear and concise book. Not much in the book but what it does contain are simple and easy to understand. What is easy for others to figure out isn't so easy for others so if you need just a few tidbits of information to get your life up and runnin than this book is for you.

I enjoyed this reading very much. Some of the quotes are very remarkable. I would like to have them printed on my fridge so that I do not forget about the things I've learned. It is really helping you to architect your life, to get rid of fears and to gain happiness.

This was a very poorly written book. The content doesn't strongly relate to the title. I felt like I was reading a high school term paper on the law of attraction.

I paid \$6. for the paperback. 25 pages of large text.. the other pages are the table of contents, chapter titles, whatever. Nothing of help in this tiny book... some of it doesn't even match up with the teachings of Abraham/LOA. Some of the affirmations might be helpful and I do like the cover. If I had got it on Kindle for free I might have left 2 stars... it just wasn't worth paying for.
