## Customer Reviews

Another reviewer mentioned that some chapters were removed. This is the standard 5th edition. It has been edited since the 4th edition and the book has been streamlined. Do your research, of course, but this is definitely the complete 5th edition of Children's Books in Children's Hands! It comes with the online access and the ebook as well as a hard-copy of loose-leaf pages. You will need a binder to enclose them. Happy studying!

Very well written. Just what I needed to get an A in my children's literature class!

I received this book in plastic, almost Saran-wrap wrapping. Despite the strange appearance of the book, it is in great condition. It has no missing pages, rips, or tears. It fits perfectly into a binder as well. Nice product!

The exact book I needed for a class I was taking. It came in a loose leaf style with holes to be able to put it in a binder. Great for sorting through pages and being able to mark on them. Got an A in the class! :)

Book is informative and educational; great for learning about literature through the eyes of a child.

Great book, very easy to read and interested! This version doesn't have the last few chapters that other versions do though.

At the bottom corner it seems like it got wet and dry, no worth what I payed for it, shoul have invested my money in a new book.

The reference lists at the end of each chapter for books to read that fall under that category is enough to purchase on its own!
