I really admire of this Book which the intentions is to improve more each individual. Lot's of important details to know , the best guide to everyone. But it needs a lot of time to make it work, just give the we can do for this. We can achieve the benefits we want from it. Because they increase our emotions ,control our mind and especially our actions. To understand more the true meaning of life and purpose.

I downloaded this book following a friend's suggestion. She is taking the same yoga classes as I take and told me it helped her have a deeper understanding of meditation. The only knowledge I have on the third eye comes from random discussions during our yoga class break. I was surprised to find out about its great power. I am determined to awake it and I won't be discouraged by the difficulty I will face. The higher state of consciousness of my soul and mind, and of my surroundings that I will acquire would be admirable.

Very good this book because it helps you to develop your third eye doing, can predict what might happen in a situation specific. It has helped me this book because I have developed that part of the brain to have a sixth sense and can see beyond things, after reading this book I have had several experiences and thanks to what has been learned in this book have been able to predict what may happen or have some feeling good or bad situations.

For people interested in the supernatural things, and how you can improve your life using this methods, this book is really good, focusing in what the third eye is, it covers the basic, from its definition, its cultural associations, why should you activate it, preparations for doing so and many more. This book is super good for people who want to understand what is the third eye and the things it's supposed to do. Third Eye: Mind Power, Intuition & Psychic Awareness: Spiritual Enlightenment helped me understand what having your third awakened can do to you, how you can perceive things more clearer and the process on how you can awaken this if ever you decide to. Overall a nice read if your a casual reader and likes mysteries and psychic abilities.
