Megan Miller is a freelance writer and editor and has been playing video games since the olden days of the first Castle Wolfenstein. Since Minecraft 1.2, she's been throwing Ender Eyes to find strongholds, building sugar-cane pyramids, and looking for sneaky ways to kill mobs without getting killed herself in the process. She is also the author of Hacks for Minecrafters and Hacks for Minecrafters: Master Builder, and she lives in the Mesa Plateau biome of Santa Fe, New Mexico, with her own tamed wolf named Layla.

My 6 year old reads this religiously. Even though the book is a higher reading level he would normally read, he applies himself to try and has actually greatly improved his reading skills while learning almost everything there is to know about minecraft! Great book!

There is so much good stuff in this book. My 9 year old daughter loves it and is planning on building her underwater house and other cool ideas in this book. She had checked out the original version at the library and this one is definitely worth the investment.

All known to most kids who are really into MineCraft... :(

This book helped me in Minecraft a lot.

great, my son loved it!

My kids love the information included in this book, but the book arrived with the front cover bent back and in less than a week the binding has broken and pages are starting to fall out. Very poor quality production.
