Tantric massage is really good for making your body feel the intimate passion of touch. It's a whole new level of communication system with your body. Sensual massage is really a good thing for your body and this book helped me to realize that. Sensual massage has been practiced for a long time in a lot of countries of the world and this book will give you a little bit of history knowledge about tantric massage. Also how it is beneficial to your body and mind is also explained in this book. It's a great book to read and there is no doubt in that.

Tantric massage is very useful for people like me. The power of touch is very big and this book made me realize that. By reading this book you will know the secrets of tantric massage and you will start widely practicing tantric massage. This book will help you to understand all the theories about tantric massage. This book will describe you about the history of tantric massage to you and it's very good to know this history. This book will also let you know about The Japanese art of Nuru and other forms of sensual massage. This is a very useful book to read.

Very good read and I did learn that a lot of the touch and feel of your partner is also a connection and that connection helps to transmute the energy to another life-force. Thanks for writing this book as I believe it can help any relationship.

Recommended, recommended for all who want better experiences in sex. For those who don't really have a proper idea of what tantra is then this book will tell you. READING this book was an enlightening journey and following the techniques here was an adventurous journey. And I'M NOT COMPLAINING!!!

Regain the ability to feel the psychosexual charge of touch. This is the first time ever I heard that term and this book had me hooked for a reason other than just seeking ways of sexual pleasures.

This book has given me a new way of exploring intimate recognition of body parts through the procedure of tantric massage. Such alternative form of massage can surely benefit me and my partner in relieving stress and in inducing more pleasurable moments in a very wholesome way. Practically, the guides and tips to get the most effective results of tantric massage are very easy to follow. They are also well-presented in this book.

A very enjoyable and informative book. Rather than just jumping head on to the massaging techniques, Crystal Hardie takes the first few pages to define the "tantric massage"™, things like its history and how it evolved etc. It was, for the lack of a better word, interesting!

This book gives techniques that are perfect for couples to enhance their relationship and treat each other in a very deeply sensual manner. This book doesn't just have massages there are also things like sex toys and a lot of actual facts associated with sex and tantra.
