Customer Reviews

Who doesn't like ice cream? For me this book is a great find because I had no idea that making ice cream was so simple. I remember when I was a little girl and when my grandparents would use the hand machine turning and then my parents an electronic one and now I get just use my freezer.

The idea that we won't have to worry in taking in carbs and shaping our body even we ate ice creams is awesome!!!

Good variety of recipes. Limited amount of carbs, which is good. Would have liked to see amount of carbs, fats etc per serving listed.

This is a very helpful book with large amount of diet ice cream recipes, which are very simple and easy to make and in a minimum time.

This is really nice and interesting book. It's summer and of course you want ice cream! But you're on a low carb diet so what you really want is low-carb ice-cream.
