The Protestant Ethic And The Spirit Of Capitalism: And Other Writings (Penguin Twentieth-Century Classics)

Synopsis

In *The Protestant Ethic*, Max Weber opposes the Marxist concept of dialectical materialism and relates the rise of the capitalist economy to the Calvinist belief in the moral value of hard work and the fulfillment of one's worldly duties. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Customer Reviews

Max Weber (1864-1920), German sociologist, one of the founders of modern sociology. He emphasised cultural and political factors as key influences on economic development and individual behaviour. Weber argued for a scientific and value-free approach to research, yet highlighted the importance of meaning and consciousness in understanding social action. His ideas continue to stimulate thought on social stratification, power, organisations, law, and religion. Peter Baehr teaches in the department of politics and sociology at Lingnan University in Hong Kong.

Those considering buying the Kindle edition, just be aware most Greek phrases are rubbish, and

that links only work for the editor/translator notes, and not for Weber's own notes - so it is extremely tedious to consult the author's extensive and important comments. This doesn't detract from the greatness of this text, and specifically the introduction and the included debates about The Protestant Ethic are a tremendous value. I just wish eBook quality was better.

great book

Terrific book. One explanation of western culture advocating free markets.

This book provides an excellent insight in this much debated subject. The book book for the serious reader and may be may not suit the sound-bite & quick popular remarks desire. In return a solid and extensively referenced "tour de horizon" is provided. The book certainly sharpens the mind and broadens the insight.

Excelent book

Weber's visionary perspective is still relevant today!!!

Interesting look on capitalism. I would recommend it to anyone who has a interest on the subject, and wants a different look on it

Love it
