Good Book! I got this while planning a trip to Arizona, it came in very useful both before and during the trip. I'd always wish for more, twice the book that also covers mineralogy and such. So this was one of five books I carried on the trip, an AAA guide, a mineral guide, an Arizona Highways guide, and a Delorme map book with GPS. This book was the most enjoyable.

Interesting history, much more comprehensive than Jim Hinckley's "Ghost Towns of the Southwest". Makes you want to get a high clearance vehicle and hit the road!

Fascinating book. I need to get another to keep in the car forexploring.

Varney's books are all well done. This is no exception.

We use it to plan camping destination trips.

Haven't any complaints.'t

Great book!!!
