# **Astrophotography: Proceedings Of The IAU Workshop, Jena, GDR, April 21â€“24, 1987**

## Synopsis

This volume contains the proceedings of the workshop "Astrophotography 87", which was held in Jena, April 21-24, 1987. The workshop was organized by the Central Institute of Astrophysics of the Academy of Sciences of the German Democratic Republic and is the latest in a series devoted to the problems of photography in astronomy. The previous workshops, which have taken place every three years, were held in Edinburgh (1984), Nice (1981) and Geneva (1978). For telescopes with large fields of view, in particular Schmidt telescopes, photographic plates are the only suitable radiation receiver. Thus the efficiency of the photographic plate determines the quality of the observation. The treatment of the plates in the photographic laboratory is also very important. Additional factors affecting the scientific results are the measuring machines and the methods of interpretation. All these topics were discussed in the workshop by the 62 participants (26 from the GDR and 36 from 13 other countries. Thanks go to David Malin, the chairman of the working group "Astrophotography" of the International Astronomical Union, for writing an introductory article for the proceedings. I am grateful to all participants who presented papers during the workshop for sending in their manuscripts on time. Poster papers are arranged among the other papers according to the topics they treat. All participants also wish to express their thanks to Springer-Verlag for publishing the proceedings.

## Book Information

Hardcover: 241 pages

Publisher: Springer; 1 edition (April 4, 1988)

Language: English

ISBN-10: 3540184988

ISBN-13: 978-3540184980

Shipping Weight: 1.3 pounds
